Q11b_Q15a	Has your use of media changed?	<p>a. use, Jeg har ikke starta og bruke det annerledes, I am more aware that the news can be fake., I use discord a lot more now. It has allowed me to be in contact with a lot more people in different communities, I try to put a limit on how much time I use on my phone., I was very careful with social media before I took Part of the project. Yes, I would say my use of media have changed. I am more critical to news that is a little weird and I only follow people that give me a positive vibe., I check different sources and I have unfollowed a lot of people on social media., I started depending less on social media for having fun, The project didn't affect my use of media at all. I mainly use it to look at pictures of clothes, flowers and my other interests. I already followed activists accounts., No, I was already pretty aware of stuff that could be misleading, so I don't think that much has changed, I'm more aware of the media I use now. I pay more attention to what I'm exposed to and why I'm exposed to that type of content. I also try to be more aware of how much time I spend on social media. I have realised that social media isn't a good use of my time and energy., I have been more critical to the sources I'm using, I use it more carefully., I always check if the website is safe, and I am more careful. I also read more news., I use media more to know whats happening in the world, I check if news and stuff are real more often then I used to., , My use of media hasnt changed., I am more aware of fake news on social media, It has not., Its the same., I use a bit less sosial medias like TiKTok, No, my use if media hasn't changed., i spent less time on social media, Dont change because i continue to use the same way as before, after the lecture that we had about us speding too much time on our phones, i start being more careful about it, After da pandemic I start using more the media</p>				

Q11b_Q15b	Did taking part in this project change your attitude to social media?	<p>a, fake, Det bare gjord3 det ikke, Now I know how bad social media was for our health and minds., Not really. I still think people care to much about social media., I now know how little your time on social media is worth., I don't know, Yes. I am more critical to news now than what I used to be., Yes, I got more aware of what I actually was watching., I always had the same attitude towards media, this project made me more aware of the dangers of media, I already am quite critical to what I see and read, but I am not very exposed to fake news and other political and social issues. The activism I get is often emotionally opinionated and made to fit me. Therefore I often agree with what I get., No, I am now more critical that I was, Yes, I'm much more careful with what I believe. I've realised that the people on social media are very different that they are in real life. Most of the content I'm exposed to wants something from me. I now relize how dangerous social media is., I understand the consequences better., I am more aware of what social media really is., Yes, a little., Because i know that some media is fake, I am more sceptical about what I read on social media and I use it less because I want to have more self control about my social media use., .. My attitdue to Social media is still the same., I have understand the power social has on your life, It has not, Its the same, I still think sosial media is a important part of today's society, Yes, I have learned a lot about the media, and how it can affect a lot., made me realise that social media is somehow a bit toxic, Dont change because i continue to use the same way as before, i start being more careful about things that i post and news that i read that can or can not be fake, I've always been very careful on social media</p>
